"I bought Boston from someone who wasn't able to bond with her. Unfortunately, she wasn't my horse for long because we came to find out that she had ringbone in both of her pigeon-toed front legs. After we got her diagnosis and began treating her, Boston became the sweetest horse (*despite being a mare*) and she tolerated my daughter climbing around her. She also helped teach my dog how to act around horses. Neither my daughter's nor my dog's antics seemed to faze her.

I ended up making the decision to lay her to rest because the ringbone became too painful and nothing was helping to manage the pain. The ringbone ended up spreading to her back legs as well, and I knew it was time. She was, honestly, the best horse."
